Access Control Locks

KABA®

E-Plex Series Electronic Access Control

Kaba's electronic access control provides additional features beyond mechanical access control. These products range from simple programming at the lock to more advance applications requiring software for managing many users and doors. PIN and/or card access locks allow management to set access schedules and review activity via audit trail.

- No Wiring
- Long Battery Life
- No Keys to Manage

- Programmable Features
- Multiple Authority Levels
- Easy to Install, Use and Maintain
